8	Thirsk	0

The calculation of points after the first two races are after minor adjustment to scores from the first race as an Imperial Runner was missed off the recorders sheets at Thirsk.

TEAM MANAGERS PLEASE NOTE

To enable any recording errors to be traced it is essential to list the names and numbers of runners for each race rather than just hand a number out at the start of the series to a club member and then not know whether that person is actually running on the night of the race. It makes no difference to the working of the results if runners run under a different number in each race providing names and numbers given are on the list of entries for the night of the race. With the increased numbers running the recording is now obviously more difficult.
